Digital data loggers

Eztek loggers are used around the world, on land and offshore oil fields, as well as in other industries. All of our products are backed up by quality service and dedication to our clients' needs.

Benefits of Eztek Digital Loggers:

Low maintenance and running cost
Low cost ompared to mechanical paper chart recorders

Single unit handles multiple tests
One Eztek logger instead of 4 or 5 paper chart recorders

Electronic recording to USB stick
Save time by downloading straight to USB stick. Hazardous area download is available.

Real-time view
Save time by viewing data as its being recorded

Record other measurements: flow, temperature, density, weight, tension
Loggers offer great flexibility while remaining easy to use

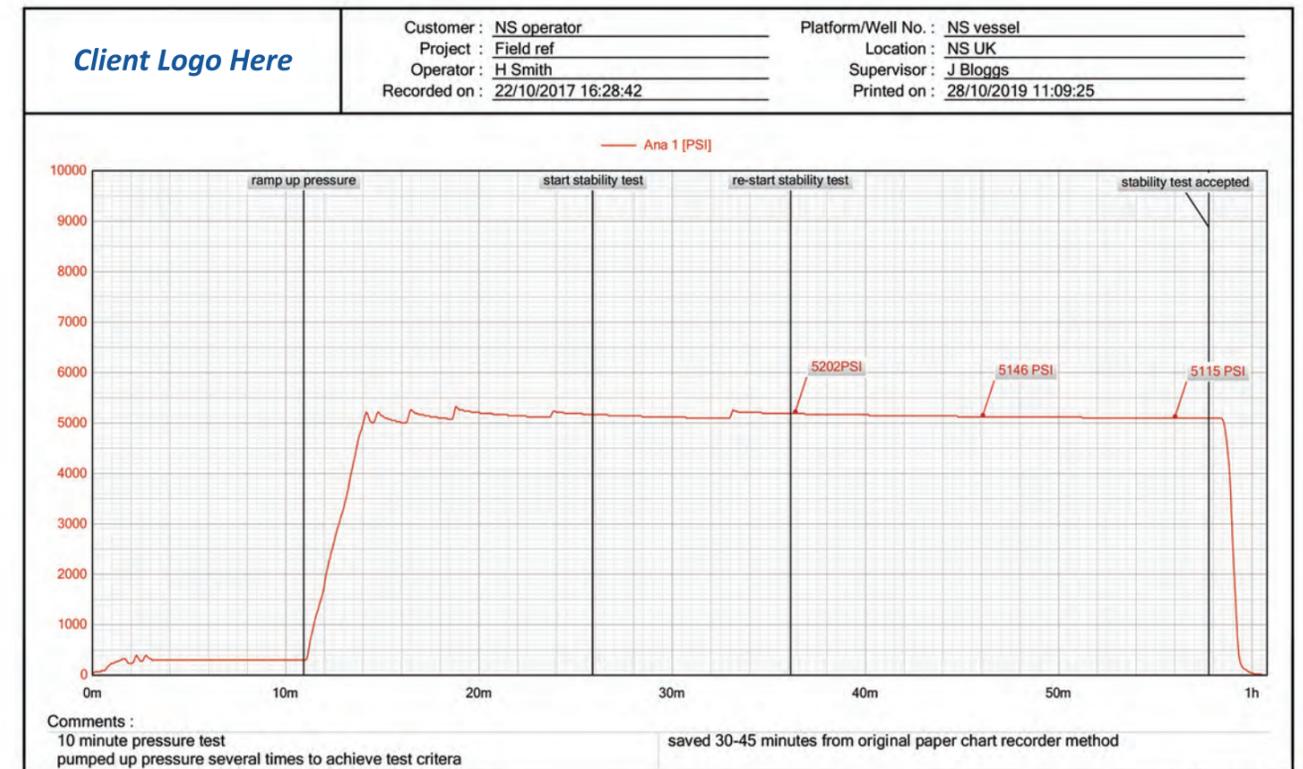

TestLog Workshop Logger Features:

- Automatic stability testing
- Set test pass criteria
- Add comments during and after testing
- Historical library with review/quick preview of previous tests
- Sample rate up to 80/second
- Synchronised network backup

TallyView software

Create detailed reports in minutes

Add test details and time Add comments Adjust scale Amend graph review

TallyBook build options:

- Battery or mains powered
- Button controls or touch screen
- Portable, skid mount, or panel mount
- Zone 2 or Zone 1
- Software configured to suit client needs
- Full customization on rental units**

Rental units are sent out in rugged pelicans with protective foam inserts.

Eztek data loggers are a cost effective alternative to paper chart recorders. Replace several paper chart recorders with just one Eztek logger.
